openHUB Europe

openHUB Europe is a European Cooperation Project in the realm of interdisciplinary contemporary arts. The development of a common European cultural identity and sense of community is at the same time an exciting and a drawn-out process. The complex activities of the two-year project which started in May 2015 consist of exhibitions, artist in residencies, workshops for audience, professional trainings for the partner organizations, panels discussions and events.

www.openhub-europe.eu
